A woman with long, wavy blonde hair and blue eyes is looking directly at the camera. She is wearing a white short-sleeved t-shirt with grey trim around the neckline and the cuffs. The background is a bright, minimalist white space with some architectural lines.

RESPONSIBILITY

**style**am**main**<sup>®</sup>

We are an innovative German textile producer, for  
high quality and sustainable clothing and textile promotional items.

With full commitment we are working on driving positive changes in the textile industry.  
That is why we integrate sustainability into everything we do.  
Every day we make conscious decisions about  
how we work, who we work with, and what materials we use.

## ACTIVITIES AT OUR FRANKFURT OFFICE

design, production-planning, marketing and sales,

our office in Frankfurt is the control-centre for all our activities.

In small teams we plan merchandising-collections, innovative advertising material or corporate fashion.

We also pay attention to sustainable working within our offices:

### RECYCLING

used packaging and filling materials are collected and reused. Fabric remnants are collected and given away to kindergartens as handicraft materials. Sample textiles are given away to needy people.

### MOBILITY

we do not have company cars, but instead use rail cards, smart car sharing and company bikes.

### AVOIDING WASTE

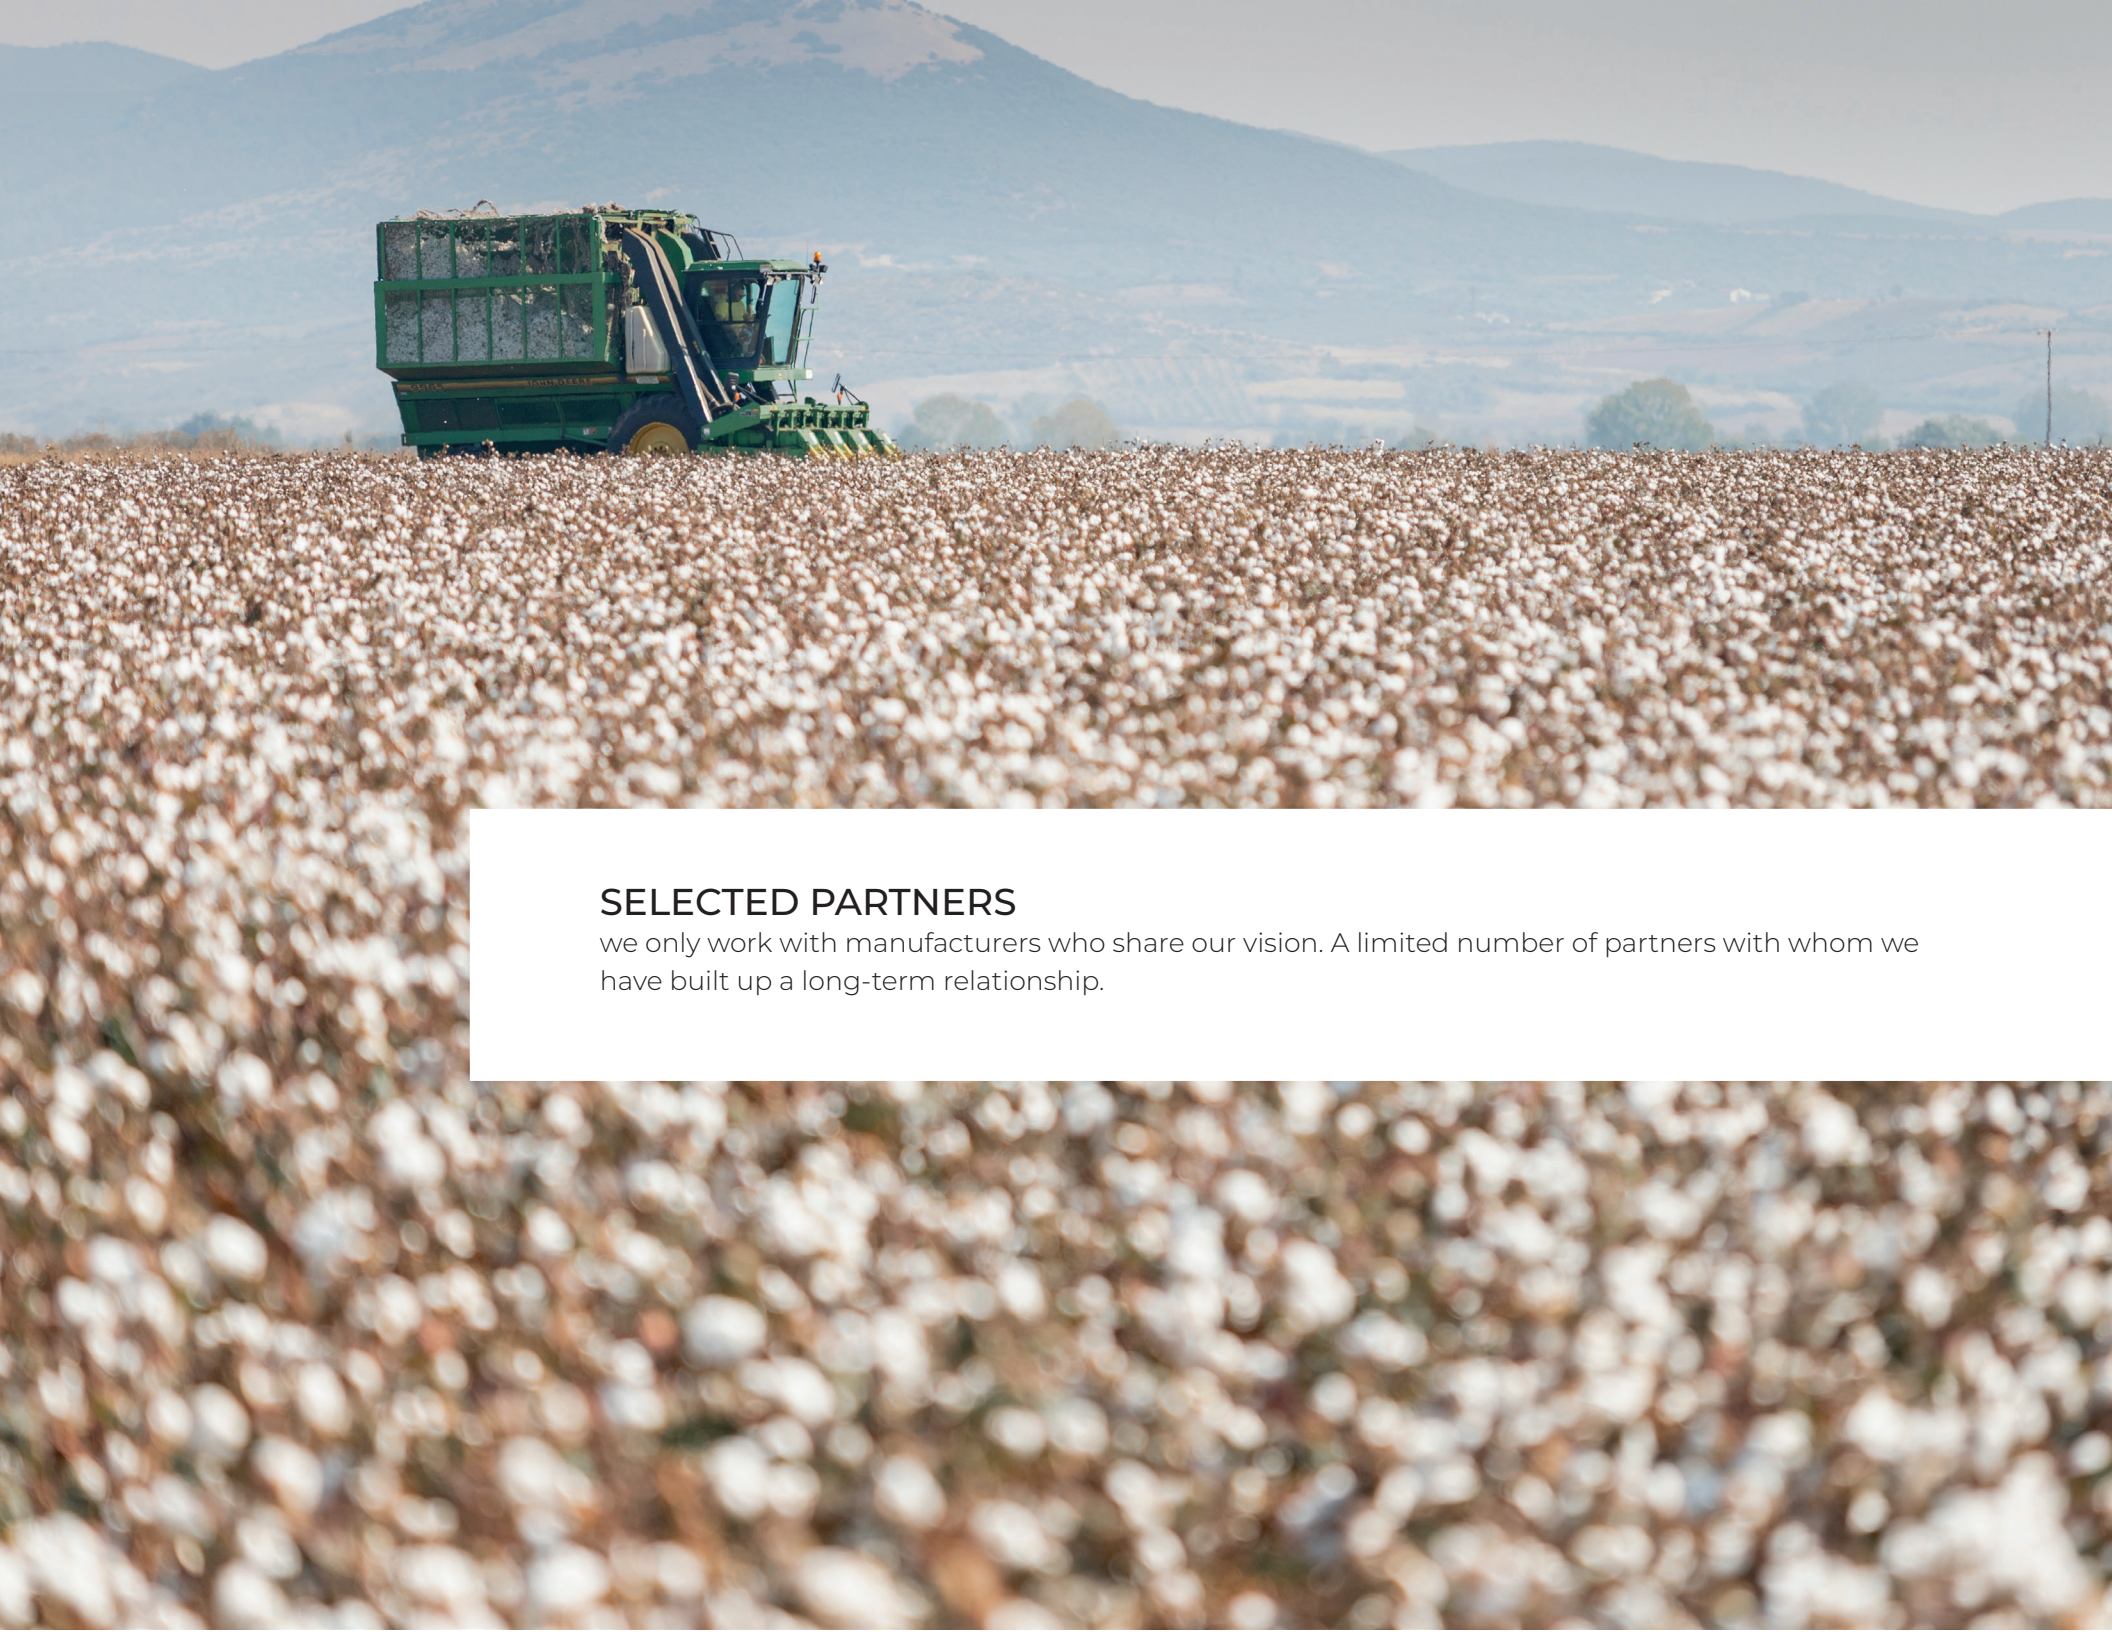

we largely dispense with paper - invoices, tax documents or brochures are only available in digital form.

### AVOID PLASTICS

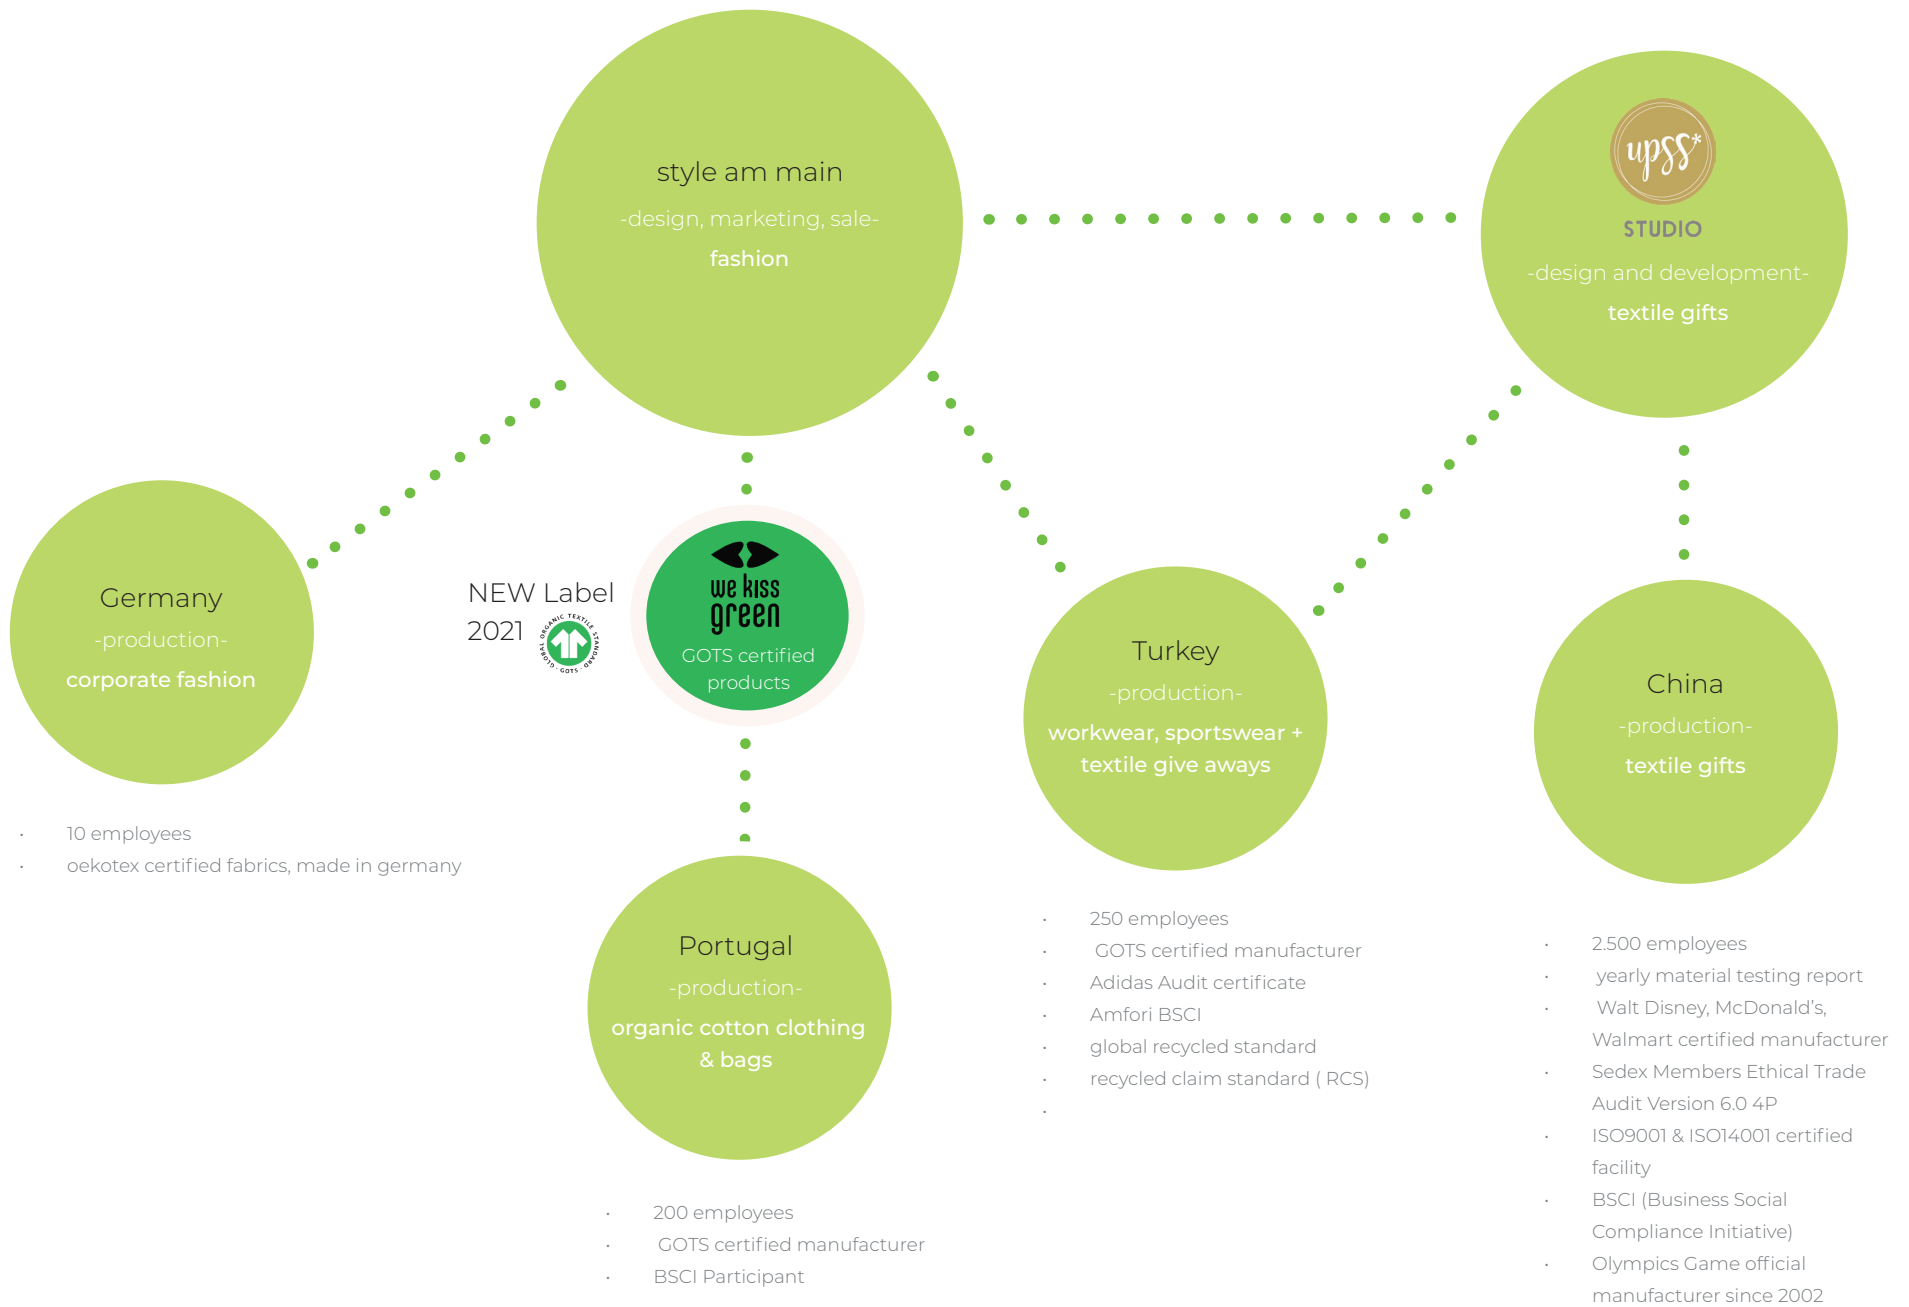

We order new packaging material such as boxes or mailing bags plastic-free from recycled carton or compostable material.

## SELECTED PARTNERS

we only work with manufacturers who share our vision. A limited number of partners with whom we have built up a long-term relationship.
